Dear John:

This letter is in response to your letter of 30 November 1983 to Robert Bendick concerning the ERRIS List. A review of our files indicates that on 13 April 1983 we proposed the addition of eleven sites to the ERRIS List and these sites have yet to be added to the current computer listing. A review of that proposed list of additions indicates that some of the sites have since been cleaned up and others have been more clearly identified so I am enclosing a new proposed list of additions with this letter. I hope that these additions can be placed on the ERRIS List for future consideration.

If you have any questions, feel free to contact me.

Very truly yours,

Frank B. Stevenson, P.E., Prin. Engineer
